Performance Summary

Is it Quick?
Not bad... This site was quick to connect and deliver initial code. It began rendering content very quickly. There were 3 render-blocking requests. The largest content rendered quickly.

Is it Usable?
Not bad... This site had good layout stability. It took little time to become interactive. It had 2 accessibility issues. 1 serious. HTML content was mostly generated server-side.

Is it Resilient?
Not bad... This site had render-blocking 3rd party requests that could be a single point of failure. It had no security issues. HTML content was mostly generated server-side.
